Mid-Pacific Regional Office  
Federal Office Building  
2800 Cottage Way  
Sacramento, CA 95825-1898

RE: New Water Supplies for the El Dorado Irrigation District

Dear Mr. Glaser:

The El Dorado Hills Chamber of Commerce is an advocate of positive economic activity within the El Dorado Hills Community for the nearly 550 large and small businesses we represent. As you know, one aspect of a continued healthy economy is an adequate water supply. For our new businesses and existing ones looking to expand, water is key. Further, as we look to create a higher quality of life and support eco-friendly solutions, all of our employers are interested in new housing options for their employees that are close to their work.

We have been made aware of the El Dorado Irrigation District's effort to secure additional water supplies at Folsom Reservoir through Reclamation's Warren Act contract process. On behalf of The El Dorado Hills Chamber of Commerce Board of Directors, please add our voice, in supporting the issuance of the two requested contracts to El Dorado Irrigation District.

If we can be of any assistance in helping to secure these new water supplies, please let us know.

Thank you for considering our request.

Sincerely,

  
Debbie Manning  
President & CEO

cc: Mike Finnegan
